

KATHLEEN BRIGHT-BIRNBAUM

CERTIFIED LATENT PRINT EXAMINER / CONSULTANT / INSTRUCTOR

EMPLOYMENT SUMMARY

Desert Forensics, Tucson, Arizona
Owner – January 2010 - Present

Provide independent forensic fingerprint consulting services to attorneys. Consulting services include, but are not limited to, review and analysis of fingerprint evidence and review of expert witness testimony and reports. Teach advanced and expert level fingerprint comparison techniques to forensic fingerprint personnel in the US and internationally.

Pima County Sheriff's Department, Tucson, Arizona
Latent Print Examiner - December 1993 – July 2008 (Full-time); July 2008 – January 2014 (Part-time)

Develop, preserve, analyze, compare & evaluate latent fingerprint evidence with known fingerprints to establish positive identification of persons. Use Arizona Automated Fingerprint Identification System (AZAFIS) to search and compare latent prints and inked fingerprints to the computer database. Manage Pima County's Arizona Automated Fingerprint Identification System computer system and administer AZAFIS policies & procedures to latent print and ten print personnel. Use physical, chemical, forensic light source and digital imaging enhancement techniques to develop and preserve latent print evidence. Write reports on forensic techniques performed and comparison conclusions. Discuss conclusions with officers and attorneys and testify as an expert witness in Arizona Superior and US Federal court. Take, classify, file and search inked fingerprints of suspects and victims. Instruct law enforcement officers on the development and preservation of latent print evidence. Provide forensic art services such as composite drawings of suspects.

Complete Consultants Worldwide, Bridgeport, West Virginia
Biometric Examination Consultant - January 2007 – March 2011

Analyze and identify latent fingerprints remotely as part of a research and demonstration project for US Army and Department of Homeland Security. Develop "Wounded Warrior" remote biometric training program for ten print, latent, and facial/iris biometrics. Provide advanced latent fingerprint identification training to the South African Police Service.

Pima County Sheriff's Department, Tucson, Arizona
Identification Technician - December 1977 - December 1993

Develop and preserve latent fingerprint evidence at crime scenes and in evidence laboratory. Document crime scenes and evidence using a variety of photographic techniques. Collect, preserve and transport physical evidence from crime scenes while maintaining chain of custody. Take, classify, file and search inked fingerprints of suspects and victims. Write reports regarding forensic procedures performed. Discuss forensic procedures performed with officers and attorneys and testify in Superior and Federal court. Instruct law enforcement officers on a variety of forensic subjects. Provide forensic art services such as composite drawings of suspects and crime scene diagrams.
